

What is the Value of AAMS Membership?

Association of Air Medical Services (AAMS) is a voluntary, non-profit trade association representing over 700+ companies, programs and individuals. Established in 1980, AAMS is the longest-serving and most well established association representing the global air and critical care ground medical transport community. As a member of AAMS, you and your staff can play a vital role in our industry's future, by guiding AAMS on how to lead the air and critical care ground medical transport community into the future.

Your voice as a member is vital to AAMS. Our unique industry, as part of a much larger healthcare system, is challenged daily to meet the ever-changing demands from the public that we serve, while still maintaining standards of performance reflecting safe, efficient operations and high quality patient care. Our association is built on the idea that representation from a variety of medical transport services, businesses and individuals can be brought together to share information, collectively resolve problems and provide leadership. Our members are the leaders, decision makers, movers and shakers—your peers—in the critical care medical transport industry and in our communities.
