AAMS  
Board of Directors  
Association of Air Medical Services  
909 N. Washington Street, Suite 410  
Alexandria, VA 22314

Dear Sir/Madam:

It is with great pleasure that I write to you to inform you of my intent to be considered for the Board Position for Region 5 of AAMS.

I believe that my past experiences and contribution as a current Board Member for The Critical Care Transport Certification, as well as a current Lead Site Surveyor for CAMTS can serve as a benefit to the organization and the region. Additionally, my vast background as a paramedic, speaker, industry leader, and business operations will also be a remarkable advantage to the organization, and those that I will represent. Having served on the AAMS Board as a Board Member at Large from 2015 until 2017, I was able to not only see, but participate first-hand in the hard work and dedication required to represent The Air Medical Industry.

As a past president of The International Association of Critical Care Paramedics, I have seen the benefit of a strong connection with AAMS, and the involvement of the local chapters. I believe that my previous and current roles, business mindset, and national relationships can continue to foster involvement and integration of needs, services, and representation for both AAMS and those in Region V.

As a long-time member of these associations, and a proud voice for the safety and quality metrics that AAMS represents, it would be my honor and privilege to serve the air medical community as Board Member in Region V.

Respectfully,

A handwritten signature in black ink, appearing to read "Anthony Pellicone".

Anthony Pellicone  
Associate Executive Director

**Emergency Medical Services**

May 30, 2019

Mr. Dave Evans  
AAMS Nominating Committee Chair  
909 N. Washington Street – Suite 410  
Alexandria, VA 22314

Dear Mr. Evans,

I am writing to you in reference of Anthony Pellicone. I have known Anthony both personally and professionally for over 20 years and during that time I have witnessed an individual that continues to grow and expand his abilities and knowledge in numerous areas.

As an Administrator and Paramedic, I realize the importance of leadership and development of our personnel so that they may attain their goals and aspirations, Anthony has proven himself both as a leader and educator, and has been extremely successful in not only attaining many of his goals but also assisting others to attain theirs.

Anthony consistently delivers high quality results for our organization and is a very successful member of our team. As you know, it takes intense dedication, perseverance and enthusiasm to work and succeed in the EMS industry today and Anthony brings that to all of his activities.

As an innovator, Anthony has developed projects that increased the clinical excellence of the Northwell Health System's EMS and Air Medical programs as well as providing outreach education to our local community through programs such as CCEMTP and PNCCT.

Anthony is a valued member of our organization whom we have learned we can rely on regardless of the difficulty of the task on hand or the novelty of the challenge. His combination of intelligence, commitment, perseverance, creativity and compassionate character will certainly make him a valuable member of the AAMS board.

Respectfully,

A handwritten signature in black ink, appearing to read "Alan Schwalberg".

Alan Schwalberg  
Vice President

Center for Emergency Medical Services  
Northwell Health

Alexandria, VA 22314

Re: Anthony Pellicone  
Region 5 Director

Dear Board of Directors,

It is my pleasure to provide a reference and an enthusiastic endorsement for Mr. Anthony Pellicone for the Region 5 Director to the AAMS Board of Directors.

I had the opportunity to know and work with Anthony several years ago in my capacity Board Member, President Elect, President and Immediate Past President of ASTNA. Anthony also held several positions with the IAFCCP at the time and served as president for the Association during my term as President of ASTNA. Anthony and I worked closely together in the industry as members of the partnering associations and have remained connected over the years in many different industry specific endeavors.

Anthony is very skilled, responsible, efficient, enthusiastic, and kindhearted individual. Anthony has distinguished himself as an outstanding and consummate professional among all of his colleagues. In every situation, Anthony consistently presents himself and his position in the most approachable and professional manner. Anthony's work ethic is unparalleled; he thrives in a fast paced, results driven environment where collaboration and team work are highly valued. In addition to his excellent organizational skills, leadership abilities, and aptitude, it is important to note that Anthony has a skill for rallying the troops and motivating the team, especially in times of challenge. Of particular importance, Anthony's personality is one of genuine warmth and concern for each person he meets and he has a disarming way of making even the most challenging individual quickly become his friend and advocate.

I am confident that Anthony will be a wonderful addition to AAMS Board. I recommend him without hesitation and would be pleased to respond further if necessary.

Best regards,

Denise Treadwell, CRNP, MSN, CEN, CFRN, CMTE  
President

**Director, Safety and Emergency Services  
Southside Hospital, Bay Shore New York**

**2005-2012**

- Responsible for day-to-day coordination of all emergency preparedness activities between on-site and off-site organizations. Responsibilities include managing and developing personnel, monitoring and improving the performance of the emergency response organization; oversight of training for the emergency preparedness staff and personnel assigned to the organization;
- Surveillance and maintenance of emergency facilities, equipment and communication systems; scheduling, planning and coordinating program activities; maintaining familiarity with specialized and technical equipment and processes; upgrading the emergency plan and its response; ensuring that the organization is prepared to respond effectively in the event of the emergency.
- Established and maintained the facility's comprehensive all-hazard Emergency Operations Plan, including policy documents.
- Developed and managed the work of the Emergency Management Committee, served as the committee chair; staffs the Emergency Operations Center
- Applied for and managed all grants that partially fund the emergency management program.
- Representation of facility on regional emergency planning and response activities and forums. Have developed, prepared and deliver educational presentations to EMS agencies, community businesses, and residents as well as hospital employees.
- Developed campaigns and continue to prepare displays for community events; representing Southside hospital at safety and health fairs to increase awareness of emergency preparedness.
- Created partnerships with various community associations and organizations.

**Administrative Director, Emergency Department  
Southside Hospital, Bay Shore New York**

**2005-2008**

- Responsible for the 17% growth and expansion of Pre-Hospital Emergency Service Volume into the facility.
- Developed Continuing Medical Educational Opportunities for the EMS Community and the integration of facility based rotations for EMS students throughout Suffolk County.
- Organized the reapplication and reinstatement of Trauma Facility Designation for Southside Hospital. Created strategic plans to increase patient satisfaction survey results, increasing the clinical staff of the department and overseeing the expansion of the Emergency Department, with the addition of new building.
- Increased awareness and development of Southside Hospital's Emergency Management Program through Federal, State and County training and plan implementation.
- Responsible for the orchestration, writing and implementation of grants that allowed for the growth of the program without any financial impact on the facility.

**Operations Manager, Cardiac Services  
North Shore University Hospital, New York**

**2004-2005**

- Manager of Division of Cardiac Services at tertiary flagship facility of the NS-LIJ Health System
- Responsible for the logistical planning of growth and expansion of the division. Directly supervises day-to-day operations
- Responsible for the training and development of staff. Negotiated with vendors and personnel for the best interest of the Division.

**Operations Manager, Center for Emergency Medical Services**  
**North Shore-Long Island Jewish Health System, New York.** *2002-2004*

- Manager of health system based 9-1-1 and Critical Care Transport Emergency Medical Service
- Responsible for the development and growth of Critical Care transport criteria, protocols and staff
- Liaison to all facilities for Network Emergency Management
- Responsible for the integration and expansion of a pediatric transport program.
- Responsible for the mitigation and logistic for special events, serving the New York Metropolitan Area.

**Paramedic Center for Emergency Medical Services**  
**North Shore-Long Island Jewish Health System, New York** *1992 – 2008*

**Lead Site Surveyor**  
**Commission on Accreditation of Medical Transport Systems** *2007- Present*

Serving as an evaluator and initiative individual that measures the professionals and their organization involved in medical transport of patients. This is a position that offers an evaluation of compliance with medical transport national criteria in the areas of patient care and safety of the transport environment.

**Board Member**  
**Association of Air Medical Services** *2015- 2017*

Advise the direction and purpose of air medical transport while creating standards and guidelines that will support the local and state air medical programs that will focus on quality, safety and program development.

## **RELATED EXPERIENCE**

**Captain,  
New Hyde Park Fire Department, New Hyde Park, New York. 1989 – 2004**

**Vice Chair  
Suffolk County Regional Emergency Medical Services Council**

**2010-Present**

- Responsible for delivery model pursuant to Article 30 of the New York State Public Health Law and Part 800 of the NYS CCRR
- Responsible for the coordination of emergency medical services in the Suffolk Region.
- Bringing together those individuals with broad out reach into, and out, of the regional health care delivery system to provide a vital link in information gathering and dissemination.

**Board of Directors, International Association of Flight Paramedics 2003-2010**

*President from 2006-2007.*

- Responsible for Member Relations, the creation of the first President's Council and the worked on the First Response Coalition and Critical Care Standards Committee. During my tenure there was an increase of membership to its highest in 20 years. Oversaw the development of national chapters and the first International Chapter; there was the development and role out of a new website, the redesign of the Association name and logo to embrace all aspects of Critical Care Transport Paramedics, both nationally and Internationally. Created a strong alliance with counterpart associations and thereby increasing attendance and participation at national and international conferences. Created a yearly Leadership Seminar at the International Conference to enhance the development of critical care transport personnel.
- Restructured the Board into a business model, thereby creating a solid foundation for the future of the Association, in turn having the first fiscal year in the past five with a positive margin.

**Kentucky Colonel, 2006-Present**

- Honored as a Kentucky Colonel for distinguishing work, development and representation of the Emergency Medical Service personnel representation in the State of Kentucky. Created channels of communication and representation for those that were unspoken for and those that desired representation on the national level.

## **CERTIFICATIONS**
