Dear Mr. Evans and the Nomination Committee,

I am Zach Lyman and am writing to express my desire to pursue the nomination for the Region 2 seat on the AAMS Board of Directors. In my time as a flight paramedic, I have established a proven track record of quality leadership, demonstrated a passion for health care education and enthusiasm for creating better programs in the critical care world.

Over the last decade, I have cultivated a combination of unique education and experience that sets me apart. I have an MBA in Healthcare Management, a BS in Emergency Administration, and a BS in Biology. I have pursued additional learning to become certified in tactical medicine (TP-C certification) and the health care simulation education (CHSE Certification). I have experience growing new programs, working with government entities, and teaching critical care topics to a wide range of populations. In my current position, I have had the opportunity to work in every state within Region 2 except one. I have helped revamp an orientation and preceptor program for new hires and furthered our companies outreach education and simulation program. These experiences have helped me understand the needs of the critical care environment of both the provider and the people within these areas I would serve.

I know that because of my education, experience, and passion for our work, I will be a valuable asset to the board of AAMS. I look forward to talking with you more about my qualifications and this wonderful opportunity. If you have any further questions please don't hesitate to reach out. Thank you for your time and consideration

Sincerely,

Zachary Lyman

Zach Lyman FP-C

RE: Letter of Support for Zach Lyman as AAMS Board Rep.

To: The Nomination Committee for Board of Directors

I am writing this letter in support of Zach Lyman. Zach is functioning as the Outreach Education Manager for Classic Air Medical. He travels all over the Rocky Mountain Region providing education to the local EMS agencies and the various Hospital staff members. He has been instrumental in establishing an efficient and consistent process of establishing appropriate resources, qualified instructors and managing the training schedule for over 150 agencies. He is well spoken, a great leader and very organized. He has lectured at AMTC several times and frequently is the subject matter expert at Utah state EMS councils and task forces.

In addition, Zach has received his MBA in Hospital Administration. This provides Zach with the educational background and foundation to perform the duties of Regional Director for AAMS.

Classic Air Medical fully supports the efforts and time Zach would need to commit to be a Region 2 AAMS Director. Our organization will provide time off and transport and travel accommodations as needed.

Please consider Zach Lyman for the position of Region 2 AAMS Director.

Wade Patten, RN
Chief Administrative Officer

To Whom It May Concern:

Please accept this letter of recommendation in behalf of Zach Lyman in consideration for the position as Region 2 Representative associated with AAMS. Zach is currently a full-time Paramedic for Classic Air Medical, he functions as their Lead Paramedic Preceptor and Outreach Educator.

I have a previous employer/employee relationship with Zach as he worked with me as a Paramedic Technician in the Emergency Room at Mountain Point Medical Center, Lehi Utah, where I functioned as the Director of Emergency Services. Prior to the relationship at Mountain Point Medical Center, I had developed a personal relationship with Zach as I watch him care for the patients that our agency transported to Utah Valley Hospital where he functioned as a tech in their emergency room, this personal relationship made it easy for me to hire Zach into our ER when I had the opportunity. We have maintained a friendship after both of us changed employers.

Zach is detailed oriented and passionate with the areas in which he commits. Zach would represent Region 2 very well within the AAMS Committee and be an advocate for the organization. Please accept this letter of recommendation as I have no reservations in providing it. I would be happy to answer any questions if necessary.

Thank you,

A handwritten signature in blue ink, appearing to read "M. Sanderson", with a long horizontal flourish extending to the right.
